PREFACE

IN presenting the Sixty-Eighth Annual Edition of the City of Hamilton Directory, we thank the business men and patrons in general for the liberal and enthusiastic support they have given us.

The number of names in the Alphabetical Section is 86,445. Wives' names approximate 33,400 making a grand total of 119,845 names in this section of the Directory.

The Street Directory shows some 43,850 listings including Householders, Firms, Offices, Buildings and Institutions. Our estimate of the population of the City proper is 173,921.

There are a number of persons whose names are in the directory who just live outside the city limits, and others who live in nearby municipalities including Bartonville, Hamilton Beach, Normanhurst, Strathbarton and Strathearne, so the residential and working population of Greater Hamilton is 179,840.

While the increase in the population of Hamilton and adjoining territory this year seems extraordinary, it may be accounted for by the fact that in every case where the husband has enlisted and left the city his name has been included as a resident, provided his wife is living here. This inclusion, with the influx of new residents, makes up the increase of population.

The Principal of Visible Record

It's as ancient as a hand of Whist, yet as modern as the game of Contract. If you play cards you use a visible index. You fan out the cards so that the indicating symbols in the corners of all the cards are visible at a single glance.

For years we have played cards by fanning them out for simultaneous visibility of the whole hand. To-day, this simple principle is widely used as a modern method of indexing records.

Saves TIME
Saves LABOR
Saves MONEY
Saves ANNOYANCE

Why Visible Records increase Record Keeping Efficiency

Names or titles can be seen at a glance.
Unlimited indexing possibilities.
Easy to operate.
Flat writing surface.
Ease in removing or inserting records.
Portability; binders are easily moved.
Small floor or desk space required.
Possibility of error decreased.

Can You Use It?

A partial list against which you can check your methods:

Accounting systems	Instalment records
Advertising records	Insurance records
Applications	Inventory systems
Back order records	Job records
Bank signatures	Ledger records
Collection records	Mailing lists
Commission records	Employees' lists
Cost records	Prospect lists
Credit records	Subscribers' lists
Customer's accounts	Pay-roll records
Financial records	Pricing records
Index records	Purchase records

Cost??

The cost of a Visible Record installation is paid many times by the savings made.

Actual figures show that in an accounts receivable installation, the following time is saved:

*Posting 40%, Reference 60%, Transferring Records 75%.

This represents a "dollar and cents" saving that will pay for the entire installation in a very short period of time.

*These figures have been verified by offices in Hamilton using Visible Record Equipment.

Talk it over with our Representative.
